NIOSOL 200

NIOSOL 200 is a heavy aromatic solvent with 98–100% aromatic content, offering strong solvency and high boiling stability for demanding industrial uses. Its high flash point and controlled distillation range make it ideal for high-performance coatings, petrochemical processes, and specialized formulations.

Parameter	Test Method	Unit	Specification
Color	ASTM D 1500		V.S Pale
Appearance	VISUAL	--	Clear Liquid free from sediments
Specific Gravity	IS 1448 (P) 16	gm/ml	0.960 - 0.980
Flash Pont PMCC	IS 1448 (P) 21	°C	95 – 99
Aromatic Content	IS 1448 (P) 48	% V/V	98% – 100 %
Distillation Range	IS 1448 (P) 18	°C	
IBP		°C	220 – 235
FBP		°C	280 – 300

Advantages :

- Heavy solvent with high boiling stability
- Strong solvency for industrial resins and polymers
- High flash point for safer operations
- Clear and sediment-free for consistent quality
- Suitable for high-performance coatings and petrochemical uses
